Kurt Baum Architects

ARCHITECTURE IS ... space and light, form and function, but it's also a way of living. Designing environments that support or enhance our clients' everyday lives is the most important aspect of what we do at Kurt Baum Architects. Whether its traditional, contemporary, or a fusion, our job is to fully embrace the style aesthetics, lifestyle, and dreams of our clients. You can work with incredible craftsmen and the finest materials, but there is nothing that compares to the value of good design!

WHAT SETS US APART:

We strive to make the architect-builder relationship a team effort, and understand the importance of flexibility and effective communication. If a client or one of our collaborative partners has new thoughts or ideas, we work together to come up with the best solution. It is imperative for us to deliver highly desirable, buildable projects, on time. When we create a home that fulfills a client's wishes and works with their lifestyle, we know we have done our job.

TESTIMONIAL:

"Kurt listens carefully first, so his result combines our vision with his talents and experience. It was critical to us that he embraced multiple styles, which gave us confidence that he would have the design flexibility to give us the home we wanted. The end result was our dream, adapted to our environment, and fit beautifully into our neighborhood." – *Eric Larson*
